

Ph.D. Students
(Benedict H. Gross)

	Name	Thesis	University	Year
1	Federer , Leslie	Regulators and Iwasawa Modules	Princeton	1982
2	Dorman , David	Special values of the elliptic modular function and factorization formulae	Brown	1984
3	Freije , Richard	Intersection formulae and volume calculations for Mumford curves	Brown	1986
4	Ulmer , Douglas	The arithmetic of universal elliptic modular curves	Brown	1987
5	Keating , Kevin	Lifting endomorphisms of formal groups	Harvard	1987
6	Elkies , Noam	Supersingular primes of a given elliptic curve over a number-field	Harvard	1987
7	Hatcher , Rhonda	Heights and L-series	Harvard	1988
8	Roberts , David	Shimura curves analogous to $X_0(N)$	Harvard	1989
9	Prasad , Dipendra	Trilinear forms for GL_2 of a local field and ε -factors	Harvard	1989
10	Darmon , Henri	Refined class number formulas for derivatives of L -series	Harvard	1991
11	Kotz , David	P -adic computation of singular moduli	Harvard	1992
12	Dummigan , Neil	The second descent for certain families of Mordell-Weil lattices	Harvard	1993
13	Hajir , Farshid	Unramified elliptic units	M.I.T.	1993
14	Hagedorn , Tom	Multiplications in restricted representations of $GL_n(q)$, $U_n(q)$, and $SO_n(q)$	Harvard	1994
15	Yu , Jiu-Kang	A -divisible modules, period maps, and quasi-canonical liftings	Harvard	1994
16	Rumelhart , Karl	Minimal representations of exceptional p -adic groups.	Harvard	1995
17	Conrad , Keith	p -adic Gamma functions	Harvard	1997
18	Loke , Hung Yean	Exceptional Lie groups and Lie algebras	Harvard	1997

19	Ofer, Adi	Abelian L -functions twisted by algebraic tori.	Harvard	1997
20	Gan, Wee Teck	Exceptional theta correspondences	Harvard	1998
21	Pollack, David	Explicit Hecke actions on modular forms	Harvard	1998
22	Padowitz, Seth	Traces of Hecke operators	Harvard	1998
23	Lansky, Josh	Hecke rings of groups over local fields	Harvard	1998
24	Goldstein, Susan	Spin representations and lattices	Harvard	1998
25	Engelward, Andy	Models over \mathbf{Z} for locally quasi-split algebraic groups	Harvard	1999
26	Yang, Huan	Hecke operators on Siegel modular forms	Harvard	2002
27	Lucianovic, Mark	Quaternion rings and ternary quadratic forms	Harvard	2003
28	Popa, Alexandru	Central values of L-series over real quadratic fields	Harvard	2003
29	Weissman, Martin	The Fourier-Jacobi map and small representations	Harvard	2003
